Project Objectives (1/2)

- **Involvement** of Program Management (funding bodies) and Researchers is essential to success;
- **Prioritise** vision and research directions in ICT Trust and Security, including alignment of work programs in Calls;
- **Facilitate** technical & program level catalysts for engagement, collaboration and networking activities internationally;
- **Harmonise** with International researchers → dedicated results oriented workshops and sessions on Trust and Security topics to help shape future EC Calls.

BUILDING International Cooperation for Trustworthy ICT

European Commission
Information Society and Media

Project Objectives (2/2)

- **Building** strategy for long term international collaboration in trust and security research;

- **Reaching** outside the EU channels to engage the wider community here;

- **Brainstorming** Trust and security R&D challenges best addressed at a global level;

- **Identifying** the topics that have the highest impact, highest priority, highest chance of success and which are common to most regions of the world;

Approach to find "Mutual" Cooperation

➔ **Target the larger picture with composite EU and other country's interests Consider the EU priorities – The Call!**

➔ **Utilize and build on EU's current technology base**

➔ **Shape local interests as "scenarios" with a long term technology or application view**

…and then HIGHLIGHT THE NICHEs with additive competency and mutual benefits!!

Accomplishments to date and roadmap for first 12 months

- **EU – Brazil Cooperation workshop (along with IWT 2011)**
  - Held 3rd May 2011; Rio De Janeiro (>100 attendees)
  - WS report available at http://www.inatel.br/iwt/slide-show/bic-workshop
- **In the process of putting together an International Advisory Group (IAG) from all countries (incl. funding agency and researcher)**
- **EU – South Africa 16th August 2011 (along with ISSA 2011)**
- **EU – India 28th November 2011 (along with eINDIA 2011)**
- **Preparing for Annual Forum/IAG meeting in Q4 2011**
  - building topics of interest with countries
  - planning session being held today within SysSec workshop.
  - See **http://www.syssec-project.eu/events/1st-syssec-workshop-program/**
- **Other programme related activities**
  - involvement in the Networking and coordinator cluster of the Effectplus project.
  - Involvement in Working groups of SysSec
  - Involvement in Advisory Group of NESSOS
  - Involvement in Trust and the Digital Life
  - Involvement in Future Internet Assembly

For more information and get involved

- **Please contact the project coordinator and/or work package leaders directly**
  - WP1: James Clarke **Jclarke@tssg.org**
  - WP2: Neeraj Suri **suri@cs.tu-darmstadt.de**
  - WP3: Michel Riguidel **michel.riguidel@telecom-paristech.fr**
  - WP4: Aljosa Pasic **aljosa.pasic@atosresearch.eu**

  WP1: Project Management

  WP2: Platform for International Collaboration and consensus building

  WP3: Input to the design of future research programmes

  WP4: Building the International Co-operation community.
